

## AAT-8 Accumulation & AST-8 Sorting Tables

Simple & Effective Business Solutions

The AAT-8 Accumulation and AST-8 Sorting Tables are designed to reduce the number of operators required to load and pack off from an automatic line. Containers can be randomly placed on the Asset unscrambling table where they are automatically fed to the conveyor for filling, capping or labelling.

The accumulation table collects the containers at the out-feed end of the conveyor for packing off into cartons etc.

Table tops are approx 1200mm in diameter HDPE. Designed for handling round, stable or plastic containers

- Operation- Single switch automatic operation.
- Output - Fully speed adjustable.
- Diameter - 1.2 M Diameter, 900mm (H)
- Maintenance- Machinery breakdowns maintained by Packserv free of charge.
- Origin- The AAT-8 and AST-8 are both high quality Australian made machine.
- Industries - Pharmaceutical, Food & Beverage, Cosmetics, Distribution Centers, Personal Care, Home Care, Automotive and Industrial.
- Requirements - 240V x 10Amp Power
