

ASW-10 Spacing Wheel

Simple & Effective Business Solutions

The Asset ASW-10 spacing wheel is an adjustable container handling accessory that can be mounted to a conveyor. The unit spaces out product containers to a pre-determined width on the conveyor system in preparation for other processes such as filling, capping batch coding etc. Powered by standard 240v 10 Amp power, the spacing wheel has a variable speed controller & comes with custom parts for special applications.
