### Packserv Group Announces New Design and Manufacturing Division

**Sydney, NSW, 21 July 2020:** (The) Packserv (Group) is pleased to announce the launch of their new engineering and manufacturing division - PACKSERV MANUFACTURING. The new division will be located at a new facility in Marrickville, NSW and is the culmination of two years of research and development.

Packserv Manufacturing will launch onto the Australian market with 26 new packaging machines designed to service the requirements of FMCG, pharmaceutical and cosmetic industries in Australia and overseas. The new machines automate capping, filling, and container handling applications. All packaging machinery solutions are tailored and priced to suit small to medium sized enterprises. Packserv Manufacturing packaging machines are manufactured in Australia using cutting edge engineering techniques and to strict Australian manufacturing standards.

> *"After years of renting out packaging machinery, Packserv has come full circle and returned to the family tradition of manufacturing packaging machinery. We are now third generation packaging and manufacturing.*
>
> *Two years of research and development, hours of trials and tens of thousands of dollars invested and Packserv are back in the manufacturing space. I could not be more excited and proud to bring these machines to the market. We now have a suite of 26 machines that utilise state of the art materials and technology to fill most packaging requirements.*
>
> *It is a massive addition to what The Packserv Group can now offer, and I could not be more excited at the prospect of making these new machines available for SME enterprises here in Australia. Now, more than ever before, we are needing to concentrate on bringing manufacturing back to Australian shores. Our new machines, incorporating the latest materials and technologies at competitive prices, will make that a reality." Nathan Wardell - Managing Director*

Building on a reputation for reliability, and supported by its technicians and long-established infrastructure, Packserv Manufacturing is a full suite service provider with offices in Sydney and Melbourne.  With pre-launch orders already taken in 2020, Packserv Manufacturing are in full swing building batches of new machinery and production equipment. Not a new face in the market, rather a familiar face now offering a comprehensive range built to exacting standards and delivered with a full support network.
